

Project Commencement

Yass Wagga Transmission Line Rebuild

The Yass to Wagga project is a part of TransGrid's \$1.2 billion infrastructure program to maintain world class reliability to the state's electricity system.

TransGrid is about to begin reconstructing a 132kV transmission line that runs between substations in Yass and Wagga.

Construction will start in early March 2008. The project is planned for completion by March 2009.
