

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

All weekend trenching work at the King Street and Roslyn Street roundabout, Ashbury

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

All weekend excavation of trenches at the **King Street and Roslyn Street roundabout, Ashbury** will be done between **6am Saturday 13 March and 5am Monday 15 March**, weather and ground conditions permitting. This work needs to be completed outside of standard construction hours due to high daytime traffic volumes. The work area is shown in the map overleaf.

Weekend work at the King Street and Roslyn Street roundabout was originally scheduled to take place from Friday 12 February to Monday 15 February but was postponed due to wet weather.

Work activities

- > Delivering plant and equipment to site.
- > Trimming trees to create a safe distance from plant and equipment (conducted by a trained arborist).
- > Cutting the road surface with a concrete saw.
- > Digging a trench about two metres wide using an excavator.
- > Installing conduits (pipes) into the trench.
- > Using a dewatering pump/vacuum truck as required.
- > Backfilling the trench and covering it with steel plates.
- > Temporarily restoring the road surface to allow normal traffic flow.

Work hours

The work will be done all weekend between **6am Saturday 13 March and 5am Monday 15 March**.

How will the work affect you?

- > **Roslyn Street, First Street and Second Street** will be temporarily closed to through traffic during the work. Traffic detours and traffic control will be in place for the safety of workers and road users. **Roslyn Street, First Street and Second Street** will remain open to local residents under traffic control.
- > Traffic on **King Street** will be maintained under a stop/slow traffic control set up. **Please allow extra time to travel on King Street through the area of work.**
- > There will be a temporary loss of street parking on **King Street** of around 150 metres while trenching is in progress.
- > There may be temporary closures of footpaths, but we will provide an alternative route.
- > The work will be noisy at times, but we will make every effort to keep noise to a minimum. We aim to complete high impact noise activities before midnight on each shift wherever possible.
- > Road users may experience short delays to access local properties.
- > If we expect your driveway access will be disrupted, we will inform you in advance and discuss arrangements.

Location of trenching work

What's next

Following the completion of trenching work at the King Street and Roslyn Street roundabout, we will need to return at a later stage to permanently restore the road surface.

Work in other areas of Ashbury will be ongoing until late June 2021. We will keep you advised of these work activities if you are expected to be impacted by the work. Once all work in Ashbury is complete and the cable is installed and tested, we will permanently restore the road surface (currently scheduled for late 2021).

Contact us

If you have any questions or concerns, please contact the Powering Sydney's Future project team on 1800 955 588 or at psf@transgrid.com.au.

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.
