

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

### All weekend trenching work at King Street, Ashbury.

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf).

Trenching work on **King Street, between Roslyn Street and Second Street, Ashbury** will start on **Friday, 5 February 2021**. This work needs to be completed outside of standard construction hours due to high daytime traffic volumes. Trenching is expected to progress at around 20 metres per shift. Work will take up to 10 **shifts** over two consecutive weekends to complete, weather and ground conditions permitting. Please refer to the map overleaf for the location of the work site.

### Work activities

- > Delivering plant and equipment to site.
- > Trimming trees to create a safe distance from plant and equipment (conducted by a trained arborist).
- > Cutting the road surface with a concrete saw.
- > Digging a trench about two metres wide using an excavator.
- > Installing conduits (pipes) into the trench.
- > Using a dewatering pump/vacuum truck as required.
- > Backfilling the trench and covering it with steel plates.
- > Temporarily restoring the road surface to allow normal traffic flow.

Our team will return to permanently restore the road at a later date after the new cable has been installed and tested. We will write to you again before this work.

### Work hours

The all weekend work will be done from **7pm on Friday, 5 February to 5am on Monday, 8 February**.

If works are not completed on the first weekend, work will continue from **7pm on Friday, 12 February to 5am on Monday, 15 February**.

### How will the work affect you?

- > **King Street, Roslyn Street, First Street and Second Street** will be temporarily closed to through traffic during the work. Traffic detours and traffic control will be in place for the safety of workers and road users. **King Street, Roslyn Street, First Street and Second Street** will remain open to local residents under traffic control.
- > The work will be noisy at times, but we will make every effort to keep noise to a minimum. We aim to complete high impact noise activities before midnight on each shift wherever possible.
- > There will be a temporary loss of street parking on King Street of around 150 metres while trenching is in progress.
- > There may be temporary closures of footpaths; however we will provide an alternative route.
- > Road users may experience short delays to access local properties.
- > If we expect your driveway access will be disrupted, we will inform you in advance and discuss arrangements.

## Location of trenching work

### COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
