

Proposed Out of Hours Work Notice

August 2025

Notification of Proposed Out of Hours Work at Bannaby Substation, Hanworth Road, Bannaby Saturday, 9 August and Sunday, 10 August, 7:00am – 6:00pm (weather dependent)

Dear Resident,

As part of the HumeLink East Project, we are proposing to undertake some out of hours work at the Bannaby Substation, to improve worker safety and complete construction more efficiently.

Proposed Out of Hours Work

Current approved working hours:

- Monday to Friday: 7:00am – 6:00pm
- Saturday: 8:00am – 1:00pm

Proposed extended working hours:

- Saturday 7:00am – 6:00pm
- Sunday 7:00am – 6:00pm

Extending work hours will help us complete construction of the compound and laydown area. This will reduce the overall period of disruption to the local community.

All out of hour's activities will be closely monitored for compliance with noise and environmental management plans. You will receive at least 48 hours' notice before any out of hours work occurs in your vicinity.

What to Expect

A noise assessment has identified that your property may experience minimal noise impacts during these activities.

Out of hours work will involve:

- laydown building landing
- utility works for the compound
- deliveries.

There will be an increased number of construction vehicles across the project area during our work. The work will involve the use of machinery which may generate some noise including various trucks (flatbeds for deliveries) and project vehicles, hand tools, generators and telehandlers. Machinery and equipment may generate dust, noise and vibration.

To assist with mitigating any potential noise impacts:

- there will be a limited amount of machinery working at the same time
- machines will be shielded, where possible, and turned off when not in use
- all machinery and vehicles will be maintained and serviced.

Proposed Out of Hours Work Schedule

Location	Activity	Duration	Potentially Affected Residents
Bannaby Substation	Laydown and site compound works	9 & 10 August 2025 (weather dependent)	No residents within project working zone
