

Monthly Construction Update

October 2025

Upcoming construction on HumeLink East

Construction during October 2025 includes:

- Start of major construction with first foundation piles drilled near Tumut
- Continuing construction of access points, access tracks and pads along the full length of the alignment
- Ongoing piling across the alignment, with an aim to be ramping up to full production across the project by the end of the year
- Commencing piling works inside Bannaby substation, along with ongoing earthworks for the access road.

First tower stub concreted

What to expect

- **Construction activities:** use of excavators and other heavy machinery for earthworks, road sealing works and clearing access tracks. Trucks delivering equipment and materials.
- **Work hours:** construction works take place during daylight hours - Monday to Friday, 7am to 6pm and Saturday, 8am to 1pm. If nightwork is required, we will contact all impacted landowners beforehand.
- **Work may be noisy at times:** we will do everything we can to minimise any impacts such as turning off equipment and vehicles when they are not being used.

Foundation mesh being delivered near Tumut

Traffic and Environment

As construction activity increases, there will be more HumeLink East vehicles traveling along local roads and near construction sites.

- Expect increased truck movements on Taralga Road, Bannaby Road, Childowla Road, Bango Lane, Bannister Lane, Rye Park Road, Flacknell Creek Road and Black Range Road from mid-October for **plant haulage and gravel cartage to site**
- There will also be greater presence on properties, as construction ramps up.

Survey inspections

Property condition assessment surveys are continuing to be conducted on properties and roads that will be accessed for the construction of the project.

- **Drones and a 3D scanner** mounted on a vehicle are being used to inspect roads and structures
- **Approved drone flights** are occurring weekly above construction sites to monitor progress.

Yass worker accommodation facility now open

Our worker accommodation facility in Yass opened in October and has begun welcoming workers. At full capacity the purpose-built site will be able to house up to 300 people working on the project.
