

## Work Notification | November 2025

### Assembly and erection of towers near Adjungbilly

HumeLink is one of NSW largest energy infrastructure projects, with about 365 km of new 500kV transmission line which will connect Wagga Wagga, Bannaby and Maragle. The eastern portion between the existing Bannaby substation and Wondalga is being delivered by Acciona Construction Australia Pty Ltd and Genus Infrastructure (NSW) Pty Ltd in a joint venture as AG JV HumeLink East.

#### Tower assembly and erection work to begin

Construction on HumeLink East is moving into the next stage with the start of work to assemble and erect transmission towers. The first towers will be delivered to site for assembly and erection in **late November/early December 2025**.

The first towers will be erected near Adjungbilly, close to the HumeLink East worker accommodation facility. We are also continuing work to construct access points and tracks and foundations along the project alignment.

#### What to expect

During these works, there will be increased heavy vehicle and semi-trailer movements as steel components are delivered to site so towers can be erected.

- **Construction activity** will include:
  - the use of excavators and heavy machinery for earthmoving and clearing
  - machinery and equipment will generate dust, noise and vibration
  - excavation with piling rigs to drill and prepare tower foundations
  - concrete work and pouring to prepare tower foundations
  - large cranes will be used to assemble and lift tower sections
  - trucks delivering equipment and materials
  - ongoing surveys and monitoring of biodiversity, heritage, noise, dust and vegetation including aerial surveys by drone.

All work will be carried out in line with the project [Conditions of Approval](#) available on the NSW Government [Major Projects website](#) planning portal.

#### When we will be working

- **Work hours:** construction works take place during daylight hours:
  - 7am to 6pm Monday to Friday and 8am to 1pm on Saturdays.
  - If nightwork or out-of-hours work is required, we will contact all impacted landowners beforehand.

#### Traffic and Environment

- **Additional vehicle movements:** during work there will be additional vehicle and truck movements around the site during construction, including on **Gobarralong Adjungbilly Road**
- **Work may be noisy at times:** we will do everything we can to minimise any impacts such as turning off equipment and vehicles when they are not being used
- A water cart and temporary road signage may be used for dust suppression if there is an unsealed road being used for deliveries with the risk of high dust generation.

## Where we will be working

The assembly and erection of the first towers will be happening close to the HumeLink East worker accommodation facility on Gobarralong Adjungbilly Road, east of Gundagai. See the map below. You can check the interactive map for all work locations at [transgrid.com.au/humelink#Project-map](https://transgrid.com.au/humelink#Project-map)

## Register to receive SMS Alerts

To help keep you informed on what is happening and when convoys will be in your area, we are offering the option to register for SMS Alerts to receive project updates and assist you with your journey planning. Scan the QR code below to opt-in to SMS Alerts. By opting in, you consent to the HumeLink East project delivery partners using your details to provide you with project updates and information related to the project.

## Keeping you informed

We'll continue to keep you updated about the project and let you know of any work we're planning which might impact you. If you have questions or concerns about any of the above, please contact our Community and Stakeholder Engagement team on **1800 317 367** or by emailing [humelink@transgrid.com.au](mailto:humelink@transgrid.com.au)

### Stay up to date with our work

Please head to [transgrid.com.au/HumeLink](https://transgrid.com.au/HumeLink) or scan the QR code to subscribe to regular updates, and for more information on the project.

## Connect with us

Transgrid is committed to working with landowners and communities through the development of HumeLink. Please connect with us for more information.
