

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Construction update

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

We recently delivered a letter to advise you of the remaining work activities in your area and to let you know our work would be complete by late August 2021.

Following the NSW Government's COVID 19 Public Health Order announced on 17 July, which included a pause on construction work, we now expect to be working in your area until **September 2021**. Work may not be continuous during this period.

We will restart work as soon as possible and would like to assure you that our work will continue to be done in accordance with NSW Health advice.

The latest letter we sent you with information about the remaining work activities in your area, including changes to traffic and parking, is available on our website. Please visit www.transgrid.com.au/psf and go to *Document library*, then *Work notifications*.

We thank you for your ongoing patience.

Road restoration

The road surface along our cable route will be permanently restored at a later stage in consultation with Council. Residents and businesses will receive more information about this work and when it will be done closer to the time.

Contact us

If you have any questions or concerns, please contact the Powering Sydney's Future project team on 1800 955 588 or at psf@transgrid.com.au.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.
