# **Powering Sydney's Future**

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

# Overnight trenching work at Enmore Road, Marrickville

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

Trenching work at Enmore Road, Marrickville will start from Monday 22 March 2021. Trenching is expected to progress at around 12 metres per shift and will take up to 25 night shifts to complete, weather and ground conditions permitting. Please refer to the map overleaf.

This work needs to be completed outside standard construction hours due to high daytime traffic volumes.

#### Work activities

- Delivering plant and equipment to site.
- Trimming trees to create a safe distance from plant and equipment (conducted by a trained arborist).
- Cutting the road surface with a concrete saw
- Digging a trench about two metres wide using an excavator and installing conduits (pipes).
- Using a pump/vacuum truck as required.
- Backfilling the trench and covering it with steel plates or temporarily restoring the road surface to allow normal traffic flow, and restoring the footpath and grass verge as required.

## **Work hours**

Work hours are 6pm to 6am, Monday to Sunday. We will work for six consecutive nights a week, with at least one night of respite per week.

Respite will also be provided with no work to occur over the Easter Long Weekend (first weekend of April), from Thursday evening 1 April to Tuesday morning 6 April.

# How will the work affect you?

- The work will be noisy at times, but we will make every effort to keep noise to a minimum by undertaking the nosiest activities before midnight, wherever possible.
- There will be temporary lane closures to ensure the safety of workers, road users and residents, although twoway traffic flows will be maintained. Traffic control will be in place to safely direct traffic around the work area.
- There will be a temporary loss of street parking of around 100 metres while trenching is in progress.
- There may be temporary closures of footpaths, but we will provide an alternative route.
- Road users may experience short delays to access local properties. If we expect your driveway access will be disrupted, we will inform you in advance and discuss arrangements.

## Location of out-of-hours trenching work

## What's next?

We will also be starting out-of-hours trenching work on Addison Road in the coming weeks. We are likely to start this work in April 2021. Residents in close proximity to Addison Road will receive a notification detailing the working hours and traffic impacts closer to the time.

Once all work is complete in the area and the cable is installed and tested, we will return at a later date to permanently restore the road surface.

#### Contact us

If you have any questions or concerns, please contact the Powering Sydney's Future project team on 1800 955 588, or at psf@transgrid.com.au

### **COVID-19 Safety protocols**

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
