

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Upcoming day and night work at Addison Road, Marrickville

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

Work will begin on **Addison Road between Illawarra Road and Enmore Road from Monday 12 April 2021** and this section will be completed **in five weeks**.

We have been granted special access by road authorities to work day and night on Addison Road to finish construction as quickly as possible.

This letter is to advise residents and businesses located on detours about changes to traffic and parking.

Work will continue in the area until June 2021. The next sections of work to follow will be:

- Addison Road between Denby Street and Cook Road, and
- The intersection of Illawarra Road and Addison Road.

These sections will be completed later and we will keep you advised of any traffic and parking impacts associated with these next stages of work.

Traffic and parking changes

This work will introduce traffic and parking changes both at the work zone and on nearby local streets to ensure traffic can continue moving through the Addison Road area. Please follow detour signage, temporary parking restrictions and guidance from traffic controllers to help maintain safety for workers, motorists and the community.

The specific changes are:

Street parking will be removed from both sides on Addison Road, Illawarra Road, Jabez Street, Shephard Street and Chapel Street. One side of street parking will be removed from Denby Street from Friday 9 April for the duration of the work (24/7 for about five weeks). Please refer to the map below. This change is required to enable two-way traffic flow on these streets as they are part of the detour during construction on Addison Road.

Addison Road will have the following traffic changes:

- **Westbound traffic closed:**
 - Monday 6am to 3pm
 - Monday 7pm to Tuesday 3pm
 - Tuesday 7pm to Wednesday 3pm
 - Wednesday 7pm to Thursday 3pm
 - Thursday 7pm to Friday 3pm
 - Friday 7pm to Saturday 6pm
- **Westbound traffic open for two-way traffic flow**
 - 3pm – 7pm Monday to Friday
 - 6pm Saturday to 6am Monday (36 hours)
- **Eastbound traffic will be maintained at all times.**

Agar Street, Wemyss Street, Perry Street, Shepherd Street and Fotheringham Lane will be closed to all traffic at their intersection with Addison Road. **All streets will remain open to local residents under traffic control.** The map overleaf has details all the alternative access points.

Work hours

The work hours for this activity will be from **6am on Monday through to 6pm on Saturday**. Please note that this work will continue for 24 hours a day. **There will be a respite period with no construction activity from 6pm Saturday through to 6am Monday.**

Work will be noisy at times but there are a number of ways we will be working to minimise disruption:

- High noise activities such as concrete sawing and rock hammering will be completed before midnight where possible.
- We have scheduled less noisy work, such as installing conduits in the trench, at night where possible.
- We will do regular noise monitoring while construction is in progress to ensure noise is within the levels allowed for this work.

Traffic and parking changes

Legend

- Trenching work areas
- Joint bay work areas
- Road closed to through traffic (resident and business access will be maintained)
- Full road closure (no access to or from Addison Rd)
- Road closed to westbound traffic during the hours detailed on page 2
- Westbound traffic detour
- Parking removed from Friday 9 April for the duration of the work
