

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

### Permanent road restoration at Rookwood Road, Yagoona

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf).

As outlined in our letter to you on 22 June 2021, we are returning to Rookwood Road to permanently restore the road surface. We had planned to restart on 29 July. However, our plan to restart was delayed slightly longer than expected, and then impacted further by the pause on construction work in accordance with the NSW Government's COVID-19 Public Health Order.

The construction crew will return to restart work from **Wednesday 29 September** and will be working at night when traffic volumes are lower. The work will take place over a **three week period** but will not be continuous:

- Stage 1, involving laying new asphalt on the road surface, will take around **one week** to complete.
- Stage 2, involving line marking the road surface, will take place when the new road surface has had time to dry and is expected to take **two days** to complete.

Please refer to the map overleaf for the location of the work.

### Work activities

Stage 1:

- > Delivering plant and equipment to site.
- > Removing a layer of the existing road surface using a profiler.
- > Laying new asphalt on the road pavement.
- > Compacting the road surface using a roller.

Stage 2:

- > Delivering plant and equipment to site.
- > Using a road sweeper to clean the road surface.
- > Line marking the road surface.

### Work hours

Night work hours are **6pm to 6am, Monday to Saturday**.

### How will the work affect you?

- > **Two-way traffic on Rookwood Road will be maintained under a stop/slow traffic setup when work is in progress.** Traffic control will be in place for the safety of workers and road users.
- > The work will be noisy at times, but we will make every effort to keep noise to a minimum.
- > Road users may experience short delays to access local properties.
- > If we expect your driveway access will be disrupted, we will inform you in advance and discuss arrangements.

## Location of work

## Contact us

If you have any questions or concerns, please contact the Powering Sydney's Future project team on 1800 955 588 or at [psf@transgrid.com.au](mailto:psf@transgrid.com.au).

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.

### COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.
