

Ariba Supplier Network Guide

Managing Users

Managing Roles and Users

Administrator

- Automatically linked to the username and login entered during registration
- Responsible for account configuration and management
- Primary point of contact for users with questions or problems
- Create roles for the account

User

- Can have different roles, which correspond to the user's actual job responsibilities
- Responsible for updating personal user information

Role and User Creation

1. **Click** on the Users tab on the Administration Navigator. The Users page will load.
2. **Click** on the **Create Role** button in the **Manage User Roles** section and type in the Name and a Description for the Role.
3. **Add Permissions to the Role** that correspond to the Role user's actual job responsibilities by checking the proper boxes and click save to create the role.
4. To **create a User**, Click on **Create User** button and add all relevant information about the user including name and contact info.
5. **Select** a role in the Role Assignment section and Click on Done. You can add up to 250 users to you Ariba Network Account.

Manage Users

Manage users for your Ariba account. If you enter an email alias, specify the alias owner's name and phone number.

Users

<input type="checkbox"/>	Username ↑	Email Address	First Name	Last Name	Ariba Discovery Contact	
<input type="checkbox"/>	rebecca.novotny@sap.com	rebecca.novotny@sap.com	Rebecca	Novotny	No	4

↳ Edit Delete Add to Contact List Remove from Contact List Make Administrator Create User

Manage User Roles **5**

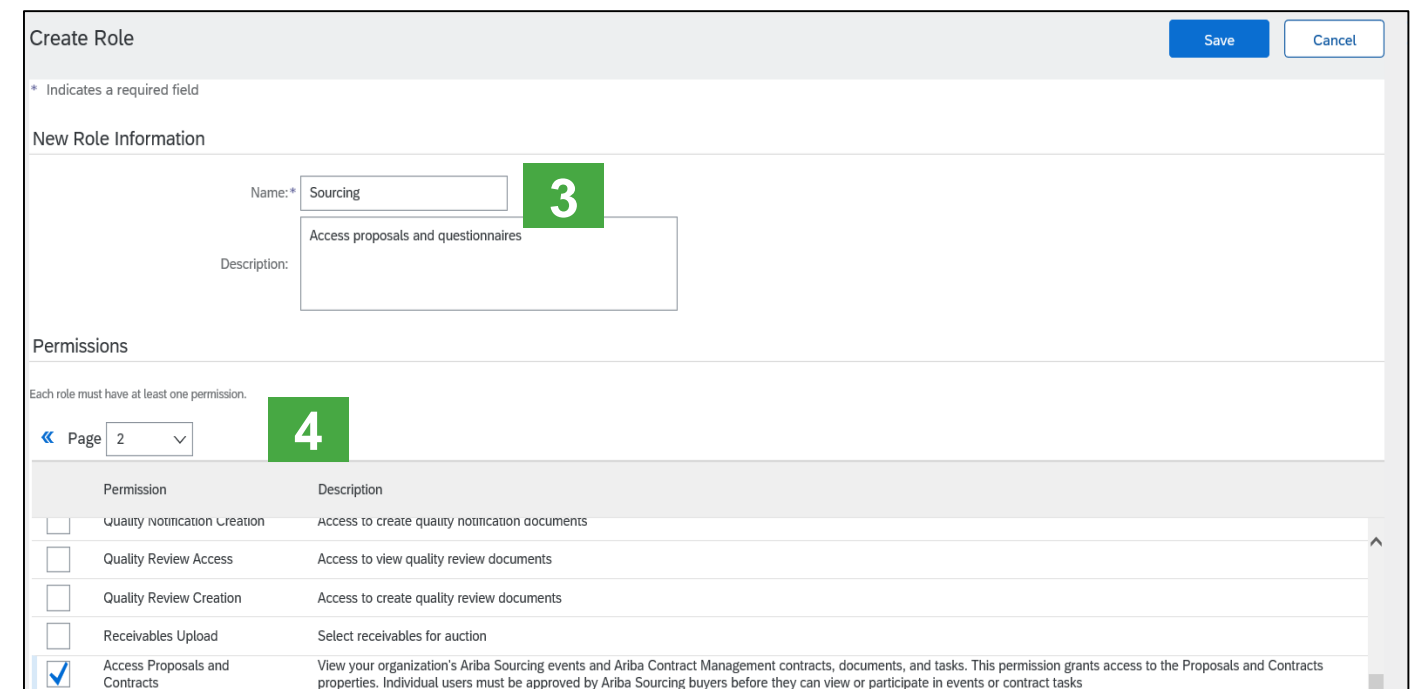

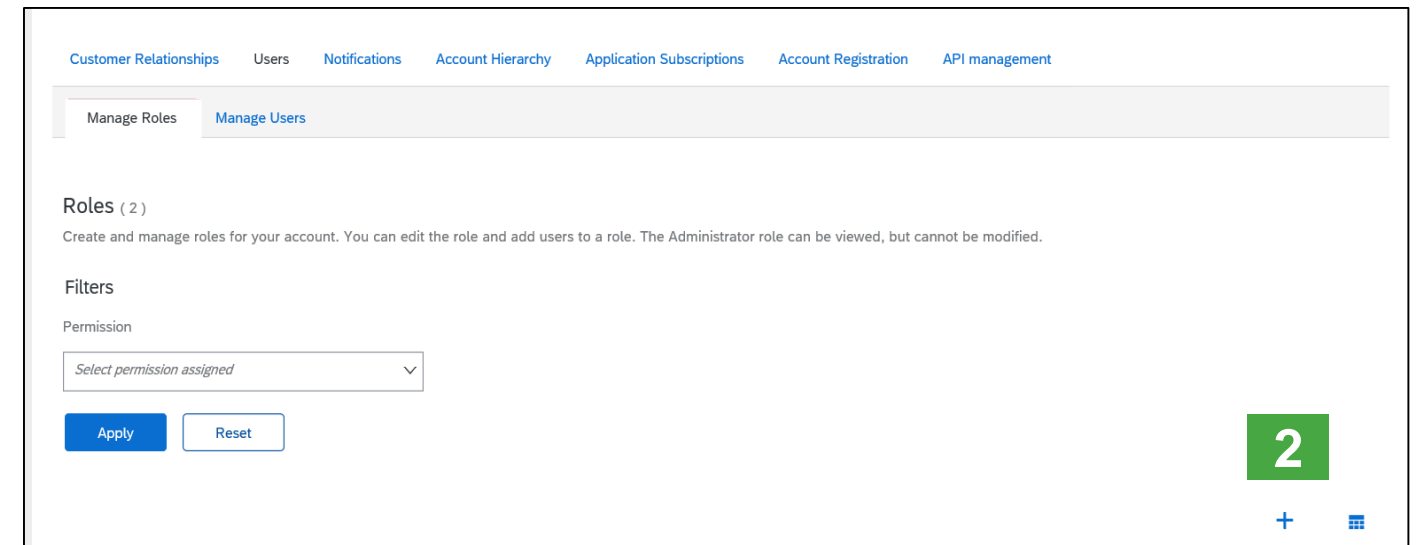

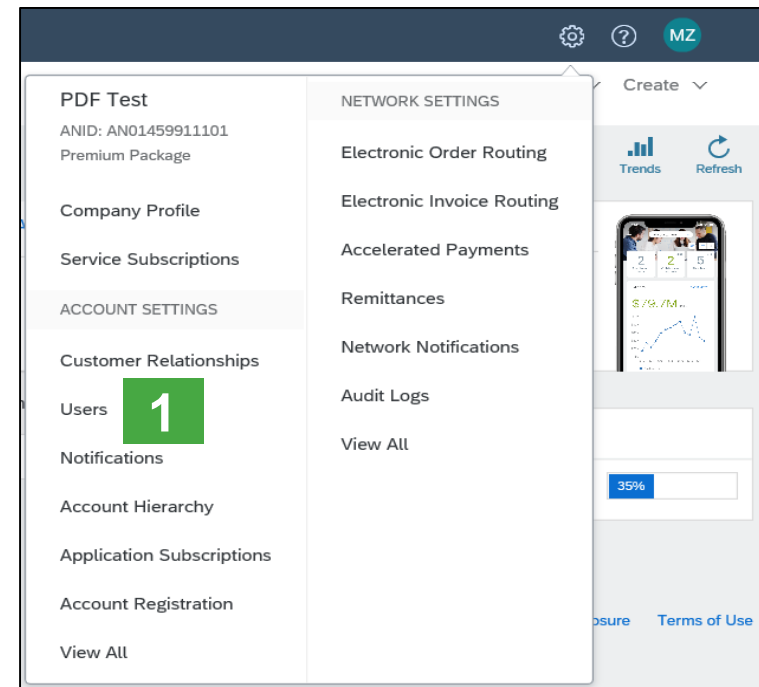

Create and manage roles for your account. You can view or edit the details of a role. The Administrator role can be viewed, but cannot be modified or assigned to another user.

Role

Name	Actions
Administrator	Details 3
All Access 2	Details Edit Delete

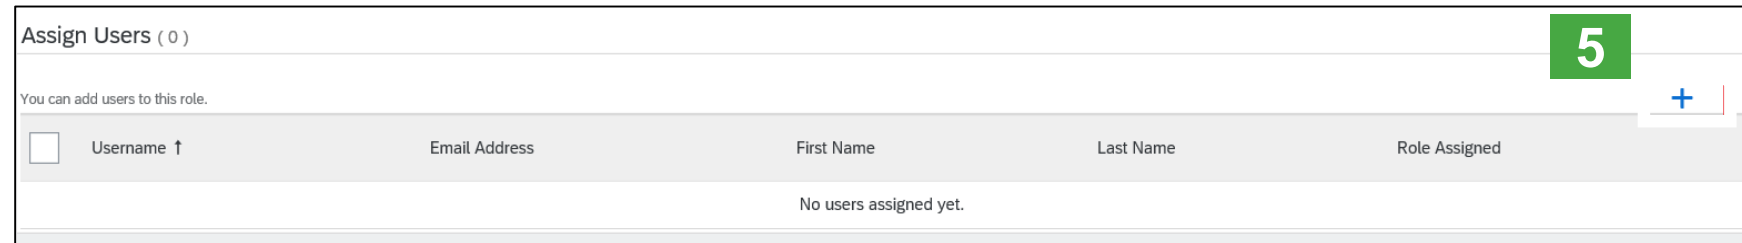

↳ Create Role

1. **Click** on the Users tab on the Administration Navigator. The Users page will load.
2. **Click** on the “+” icon in the Manage Roles section.
3. **Type** in the Name and Description for the Role.
4. **Add Permissions to the Role** that correspond to the user’s actual job responsibilities by checking the appropriate boxes.

5. **Click** on the “+” icon in the Assign Users section.
6. **Type** in the Name and search for users.
7. **Add** permissions to the Roles that correspond to the user’s actual job responsibilities by checking the proper boxes. **Click Add and Save.**
8. **Click Save** to add the user to the new role.
9. **User** is assigned to the new role.

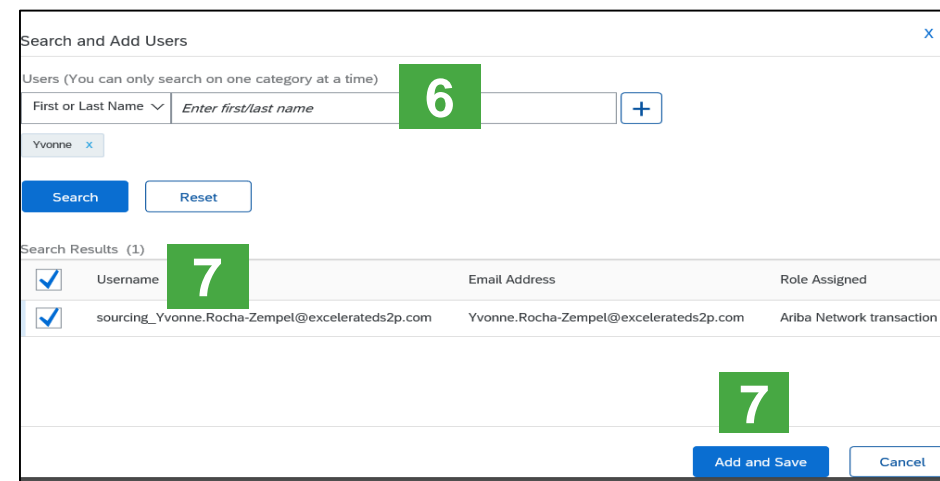

Use help to get a list of Permissions to assign to users.

View user information, revise role assignments, assign business units or reset user passwords. Ariba recommends only using the reset password functionality on this page when users have forgotten their password and their security question and answer. As a best practice, instruct users to click Forgot Password on the Ariba log in page if they forget their password. When you click Reset Password, Ariba resets the password and sends an email to the user with instructions to specify a new password and a new secret question and answer.

Having trouble logging in?

Please select one:

- I forgot my username.
- I forgot my password. **2**
- I want to log in with a one-time password using the Ariba Supplier mobile app. [Learn more](#)

Continue

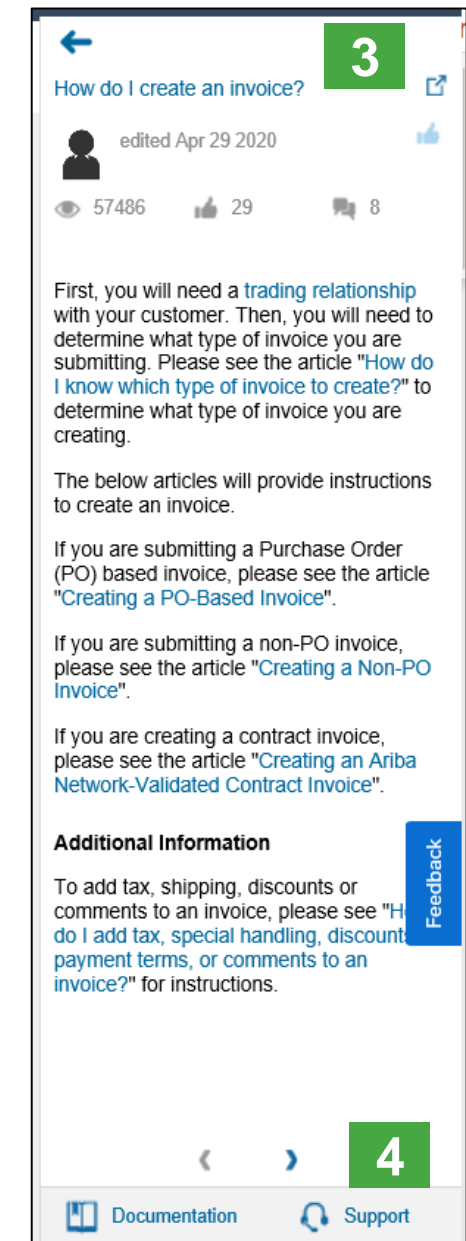

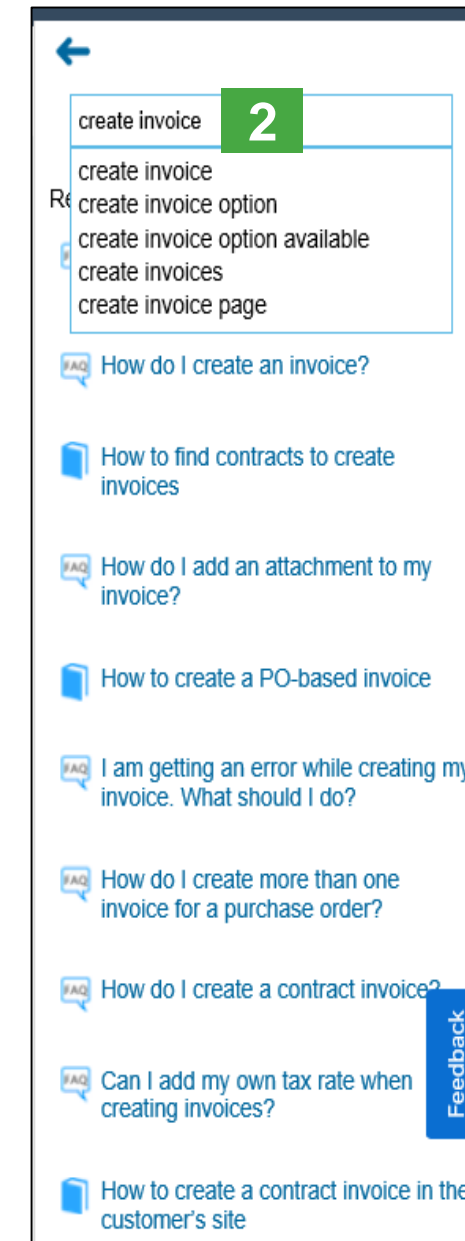

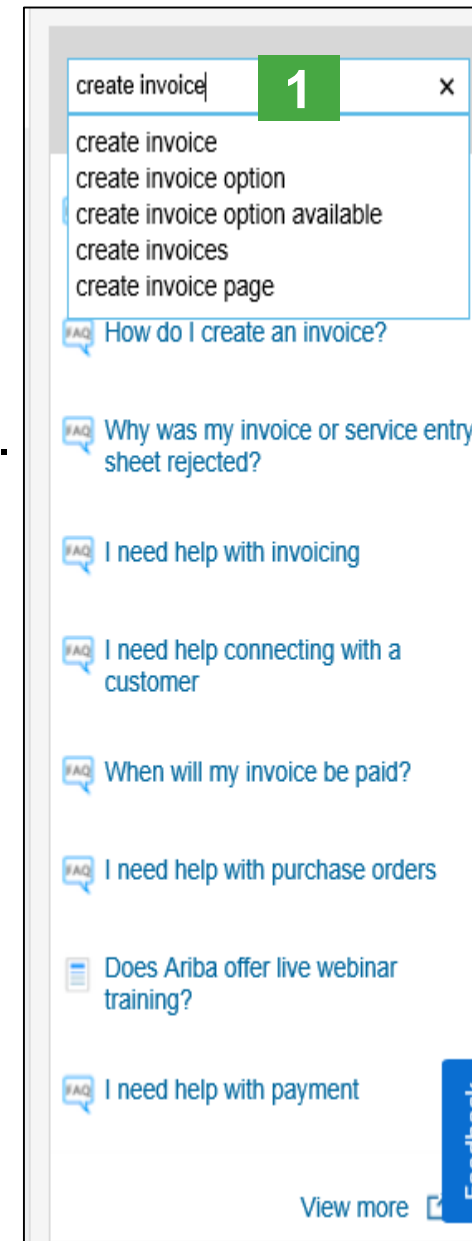

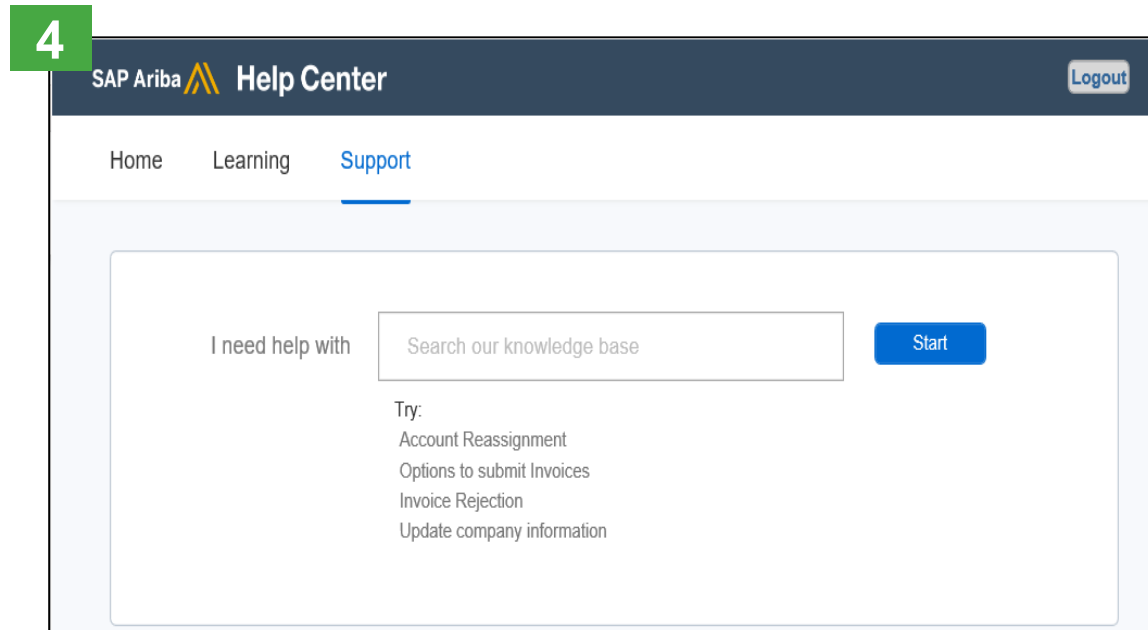

Forgot Username

To retrieve your username and regain access to your account, enter your email address registered with your Ariba account. You will receive an email message with further instructions once your information is confirmed.

3 Email Address:

Submit

1. Enter description of the issue in **Help Center** search box.
2. Click on one of the search results.
3. Review the Solution.
4. Alternatively click on **Support** (bottom) to display Support Center.

Help and Resources

Call Ariba Customer Support

1. If you don't find any relevant result in Support Center search results, click **Something Else**
2. Click **Get help by phone** to receive a call back from Ariba Customer Support

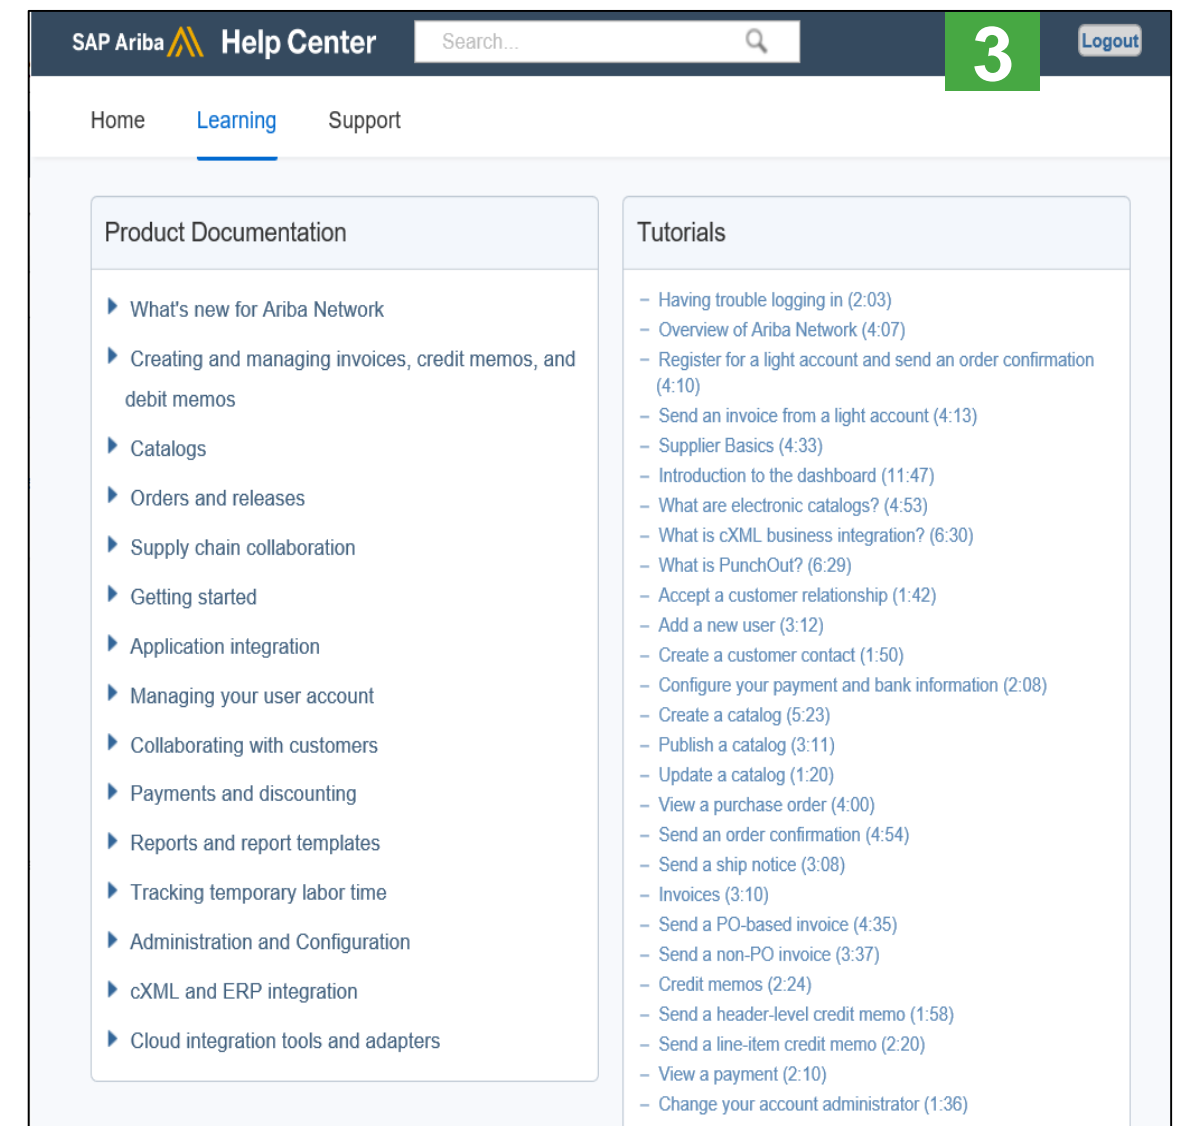

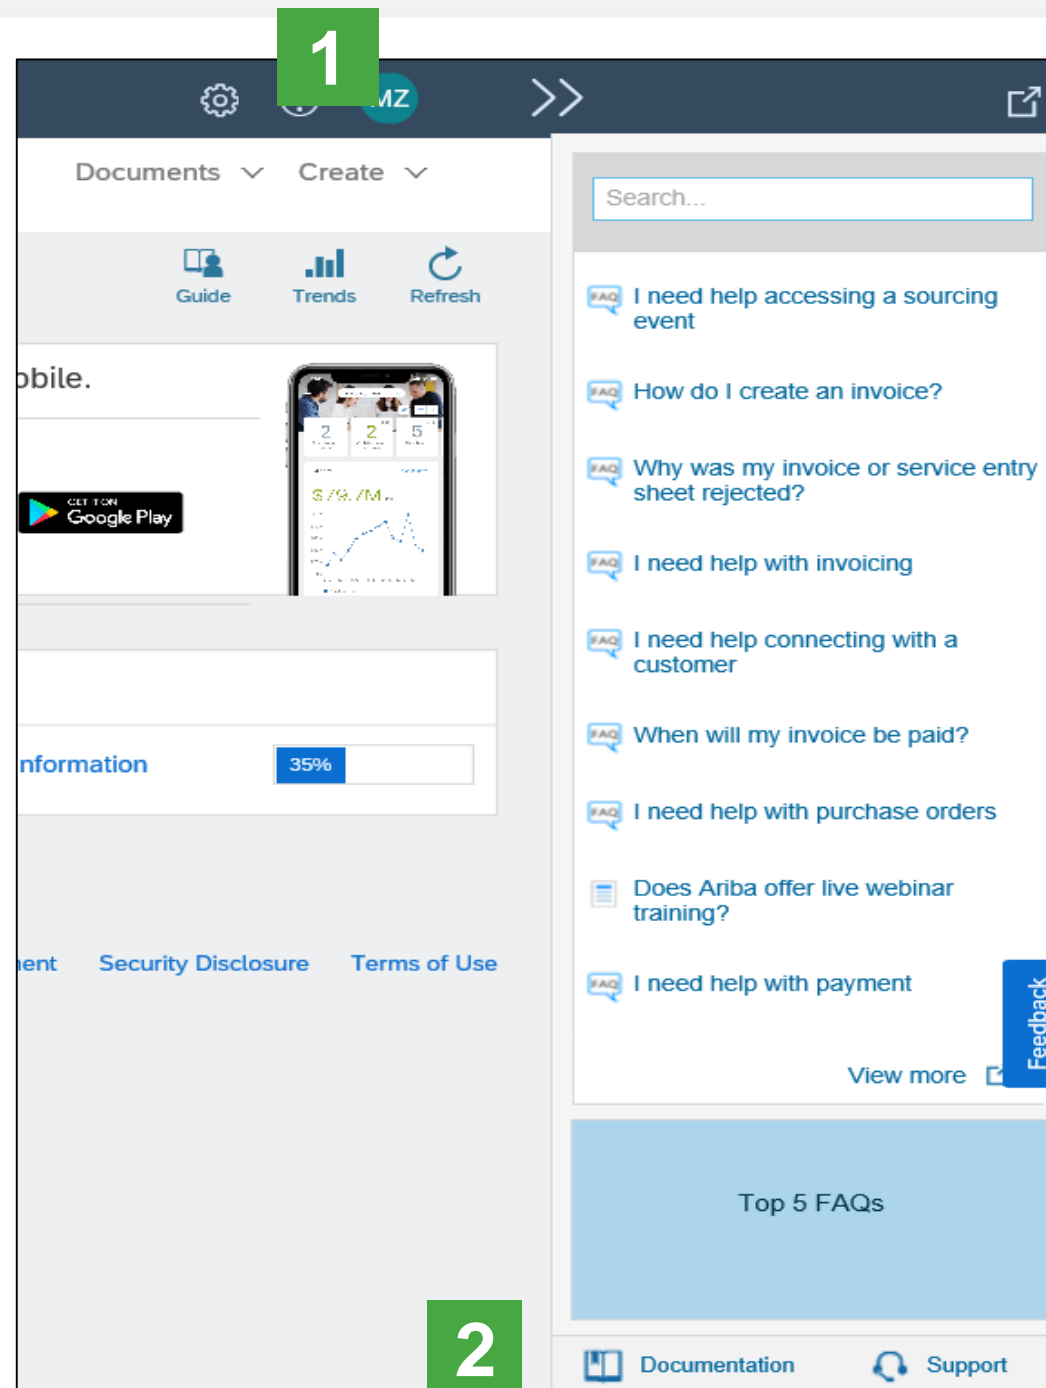

The screenshot shows the SAP Ariba Help Center interface. At the top, there's a navigation bar with 'Home', 'Learning', and 'Support' links, and a 'Logout' button. Below the navigation bar, there's a search bar with the text 'I need help with' and a dropdown menu showing 'Invoice creation'. An 'Update' button is next to the search bar. Below the search bar, there's a section titled 'Search results for Invoice creation' with a list of results: 'Invoice creation', 'Enhancements to automatic invoice creation from receipts', 'Invoice creation process', 'Invoice creation process', and 'General invoice creation compliance features'. At the bottom of the search results, there's a pagination control showing '1 2 3 ... 16'. Below the search results, there's a section titled 'Contact SAP Ariba Customer Support' with a sub-header 'Your responses to these questions will help us provide you an answer or direct you to the appropriate support channels.' Below this, there's a question 'What do you need to do?' and a row of buttons: 'Create new invoice', 'Create credit memo', 'Raise another invoice against PO', 'Invoice was rejected', 'Edit and resubmit invoice', 'Receive payment', and 'Something Else'. A green box with the number '1' is overlaid on the 'Something Else' button.

The screenshot shows a dialog box with the text 'Can't find what you are looking for? Let us help you.' Below this, there's a section titled 'Choose your communication preference:' with three options: 'Get help by live chat', 'Get help by phone', and 'Attend a live webinar'. The 'Get help by phone' option is highlighted with a green box containing the number '2'. To the right of the 'Get help by phone' option, there's text that says 'Estimated wait in minutes: 2'.

Help and Resources

Ariba Network Standard Documentation

1. **Click** on Help Center to access Standard Documentation material.
2. **Click** Documentation.
3. **View** Ariba Network Administrator's documentation.

1. **Go** to <http://supplier.ariba.com>
2. **Click** Help Center
3. **Click** on Learning Centre to access Product Documentation. The Learning Center was created for users interested in technical product documentation. The Learning Center was designed to allow you to browse the full library of product documentation and tutorials.

Note: only a subset of the documentation is available in a pre-login state.
