

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Underbore at Wangee Road and Roberts Road, Greenacre

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

Work to complete an underbore at **Wangee Road, on either side of Roberts Road**, is due to start from week commencing **Sunday, 22 November 2020**, and will take around four weeks, weather and ground conditions permitting. Some of this work needs to be done outside standard construction hours.

We will set up two site compounds on Wangee Road, on either side of Roberts Road (see map overleaf).

Work activities

- > Installing temporary fencing and safety barriers.
- > Tree trimming to create a safe distance from plant and equipment (conducted by a trained arborist).
- > Drilling under the road using a drill rig.
- > Excavating a pit.
- > Pulling conduits (plastic pipes) through the underbore.
- > Temporarily restoring the road surface to allow normal traffic flow.

Our team will return at a later date to undertake trenching work along Wangee Road. Permanent restoration and line marking of the road and any impacted areas will take place after the new cable has been pulled through. We will write to you again before these next stages of work.

Work hours

- > **Monday to Sunday, 7am to 6pm.**
- > **Two nights in a row between Sunday and Tuesday, 7pm to 5am.**
- > **Thursday, 7pm to 5am.**

How will the work affect you?

- > **There will be intermittent / temporary road closures** to through traffic on Wangee Road, to the west of Roberts Road. Traffic detours and control will be in place for the safety of workers and road users.
- > The work will generate some noise, which we will make every effort to keep to a minimum. We aim to undertake highly noise intensive works before midnight wherever possible.
- > There will be a temporary loss of street parking while work is in progress. This includes around 50 metres of parking near the western site compound and around 100 metres near the eastern site compound.
- > There will be temporary lane closures to ensure the safety of workers, road users and residents. Traffic control will be in place to safely direct traffic around the site.
- > Road users may experience temporary delays in accessing local properties.
- > If we anticipate your driveway access may be disrupted, we will inform you in advance and discuss arrangements.

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
