

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

### Underbore at New Canterbury Road, Dulwich Hill

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf)

Work to drill an underbore at New Canterbury Road, Dulwich Hill, is due to start from **Thursday, 21 January 2021**, and will take around four weeks to complete, weather and ground conditions permitting.

We will set up three site compounds, one on Pigott Street and two on Herbert Street. Please refer to the map overleaf for the location of the underbore.

#### Work activities

- > Installing temporary fencing and safety barriers.
- > Trimming trees to create a safe distance from plant and equipment (conducted by a trained arborist).
- > Excavating pits in the western and middle site compounds.
- > Drilling under the road using a drill rig located in the western site compound.
- > Assembling and then pulling conduits (plastic pipes) through the underbore.
- > Digging a trench about two metres wide using an excavator and installing conduits (pipes) in the trench.
- > Temporarily restoring the road surface to allow normal traffic flow.

Our team will return at a later date to undertake trenching work along Pigott Street and Herbert Street. Permanent restoration and line marking of the road and any impacted areas will take place after the new cable has been pulled through and tested. We will write to you again before these next stages of work.

#### Work hours

- > Work hours are **Monday to Friday 7am to 6pm & Saturday 8am – 6pm.**

#### How will the work affect you?

- > There will be temporary/intermittent road closures to through traffic on **Pigott Street and Herbert Street** during the work. Traffic detours and traffic control will be in place for the safety of workers and road users. Pigott Street and Herbert Street will remain open to local residents under traffic control.
- > Work will be noisy at times, but we will make every effort to keep noise to a minimum.
- > There will be a temporary loss of street parking on each side of the road while work is in progress. This includes around 160 metres on Herbert Street, around 30 metres on Pigott Street and around 50 metres on New Canterbury Road.
- > Road users may experience short delays to access local properties.
- > If we expect your driveway access will be disrupted, we will inform you in advance and discuss arrangements.

## Location of work sites

### COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.
