

HumeLink is one of NSW’s largest energy infrastructure projects, with about 365 km of new 500kV transmission line which will connect Wagga Wagga, Bannaby and Maragle. The eastern portion between the existing Bannaby substation and Wondalga is being delivered by Acciona Construction Australia Pty Ltd and Genus Infrastructure (NSW) Pty Ltd in a joint venture as AG JV HumeLink East.

**Hurdle deliveries in the Bannister, Goulburn, Gunning area**

With tower construction underway for HumeLink East, we are preparing for the next phase of the project which involves stringing conductor cable between towers. Between **late April** and **late August 2026**, we will be delivering and constructing hurdles in the **Bannister, Goulburn, Gunning and Gurrundah area**. Hurdles are temporary structures used to protect existing infrastructure such as roads, railways and powerlines during the stringing phase.

**What to expect**

There will be increased heavy vehicle and semi-trailer movements as hurdles are delivered to site. Some of these structures are quite large and will require multiple truckloads to deliver materials including both steel and timber beams, and concrete blocks. These will be delivered to site by prime movers.

**Work hours**

- **When work will take place:**
  - Truck deliveries will take place on Saturdays and Sundays, between 7am and 6pm
  - All other work will take place between 7am and 6pm from Monday to Friday, and between 8am and 1pm on Saturdays
  - If night work or out-of-hours work is required, we will contact all impacted landowners beforehand.

**Traffic and Environment**

- **Additional vehicle movements:** The table below sets out roads that will be used for these deliveries.

<b>Bannister</b>	Bannister Lane, Kialla Road, Leahy Road, Prices Lane
<b>Bannister/Goulburn</b>	Range Road
<b>Goulburn/Biala</b>	Gurrundah Road
<b>Goulburn</b>	Addison Street, Clinton Street, Fitzroy Street, Hume Street,
<b>Goulburn/Pejar</b>	Crookwell Road
<b>Gunning</b>	Collector Road, Gundaroo Road, Gundaroo Street, Hume Street, Yass Street, Warrataw Street
<b>Gurrundah/Gunning</b>	Grabber Gullen Road
<b>Gurrundah/Parkesbourne</b>	Mutmutbilly Road
<b>Pejar</b>	Pejar Road

- **Noise:** We will do everything we can to minimise any noise impacts, such as turning off equipment and vehicles when they are not being used.

Timber hurdles being delivered

Similar hurdle setup as will be used on HumeLink East

### Upcoming construction activities

The first stage will involve delivery of hurdles to site followed by construction to install them ready for stringing. During this time, we will also continue with the construction of access points, tracks and foundations, and the delivery of transmission tower steel to tower locations.

○ **Construction activity** in the area will include:

- use of excavators and heavy machinery for earthmoving and clearing
- excavation with piling rigs to drill and prepare tower foundations
- concrete work and pouring to prepare tower foundations
- large cranes for assembling and lifting tower sections
- trucks delivering equipment and materials
- ongoing surveys and monitoring of biodiversity, heritage, noise, dust and vegetation including aerial surveys by drone.

All work will be carried out in line with the project [Conditions of Approval](#) available on the NSW Government [Major Projects website](#) planning portal.

### Keeping you informed

We'll continue to keep you updated about the project and let you know of any work we're planning which might impact you. If you have questions or concerns about any of the above, please contact our Community and Stakeholder Engagement team on **1800 317 367** or by emailing [humelink@transgrid.com.au](mailto:humelink@transgrid.com.au)

#### Stay up to date with our work

Please head to [transgrid.com.au/HumeLink](https://transgrid.com.au/HumeLink) or scan the QR code to subscribe to regular updates, and for more information on the project.

## Connect with us

Transgrid is committed to working with landowners and communities through the development of HumeLink. Please connect with us for more information.
