

Monthly Construction Update

November 2025

Upcoming construction on HumeLink East

Construction during November 2025 includes:

- Continuation of major construction with foundation piles continuing to be drilled along the alignment
- Preparation for tower assembly and erection with the first steel tower arriving on site later this month
- Continuing construction of access points, access tracks and pads, including tower pads and brake and winch pads along the full length of the alignment
- Upgrade of Bannaby substation continues with piling inside substation continuing and earthworks on the access road ongoing.

As a part of main construction, we have started building the foundations for the towers and are aiming to lift the first transmission towers into place near Adjungbilly before the end of the year.

Foundation construction near Tumut

What to expect

- **Construction activities:** use of excavators and other heavy machinery for earthworks, road sealing works and clearing access tracks. Trucks delivering equipment and materials.
- **Work hours:** construction works take place during daylight hours - Monday to Friday, 7am to 6pm and Saturday, 8am to 1pm. If out of hours is required, we will contact all impacted landowners beforehand.
- **Work may be noisy at times:** we will do everything we can to minimise any impacts such as turning off equipment and vehicles, when they are not being used.

Traffic and Environment

As construction activity increases, there will be more HumeLink East vehicles travelling along local roads and near construction sites.

- Expect **increased truck movements** on:
Taralga Road, Bannaby Road, Childowla Road, Bango Lane, Bannister Lane, Rye Park Road, Flacknell Creek Road, Hanworth Road, Gobarralong /Adjungbilly Road, Red Hill Rd and Nanangroe Rd, and Black Range Road for **plant haulage and gravel cartage to site**.
- There will also be greater presence on properties, as construction ramps up.

Survey inspections

Property condition assessment surveys are continuing on properties and roads that will be accessed for the construction of the project.

- **Drones and a 3D scanner** mounted on a vehicle are being used to inspect roads and structures.
- **Approved drone flights** are occurring weekly above construction sites to monitor progress.

Register to receive SMS Alerts

To help keep you informed on what is happening and when convoys will be in your area, we are now also offering the option to register for SMS Alerts to receive updates on the project.

Scan the QR code below to opt-in to SMS Alerts. By opting in, you consent to the HumeLink East project delivery partners using your details to provide you with project updates and information related to the project.

Keeping you informed

We'll continue to keep you updated and let you know of any work we're planning which might impact you.

If you have questions or concerns about any of the above, please contact our Community and Stakeholder Engagement team on **1800 317 367** or by emailing humelink@transgrid.com.au

Stay up to date with our work

Please head to transgrid.com.au/HumeLink or scan the QR code to subscribe to regular updates, and for more information on the project.

Connect with us
