

Project update Arlington Street, Dulwich Hill

Transgrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable, and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

As you will probably be aware, Transgrid has completed a number of work activities on Arlington Street. We thank you for your patience during our work in your area so far. The next and final stage of work involves permanent restoration on Arlington Street.

Works on Arlington Street will start from **Tuesday 17th January 2023** and will take approximately **1 night** to complete. If the weather forecast is poor, work will be rescheduled to the next available day.

Work activities

- > Delivering plant and equipment to site.
- > Milling the road surface.
- > Laying asphalt.
- > Temporary Line Marking.

Work hours

Activity	Expected duration	Work Hours	Expected start date
Asphalting	Approximately one night	Day: 7pm to 5am	Tuesday 17 th January 2023

How will the work affect you?

Two-way traffic on Arlington Street will be maintained under stop/slow arrangements.

Stop/Slow Road arrangement will be implemented at the work zone only to minimise inconvenience. Access for residents/Local Businesses will be maintained. Road users may experience short delays to access local properties.

The work will be loud at times, but we will make every effort to keep noise to a minimum.

Some construction equipment will be temporarily stored on the roadway.

There may be temporary closures of pedestrian crossings, but we will provide an alternative route.

Traffic control will be in place for the safety of pedestrians, workers and road users.

Location of work

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

Transgrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.
