

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY CONSULTATION

Out-of-hours work at Wangee Road / Roberts Road, Greenacre

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

We need to carry out some work outside of standard construction hours at **Wangee Road, Greenacre, at the intersection of Roberts Road**. These works will generate noise. The noisiest activities will be under road boring, pumping and vacuuming.

Work is due to start in **November 2020** and will take **approximately 30 shifts** to complete, including **around 12 out-of-hours shifts**. The work will be carried out on day shifts, **Monday to Sunday, from 7am to 6pm** and on three night shifts per week **between Sunday and Thursday, from 7pm to 5am**.

How will the work affect you?

- > Out-of-hours work which does not create noise may be carried out on any night.
- > Out-of-hours work creating highly intensive noise will be completed between Sunday and Thursday nights.
- > **There will be around 12 shifts** of out-of-hours construction work in total.
- > Highly noise intensive work will be done for three hours at a time, followed by one hour of respite.
- > We aim to do high impact noise activities before midnight wherever possible.
- > Road users may experience temporary delays in accessing local properties.
- > If we anticipate your driveway access may be disrupted, we will inform you in advance and discuss arrangements.

We plan to carry out highly noise intensive work for a total of three night shifts per week. This includes two consecutive nights between Sunday and Tuesday night and one shift later in the week, on Thursday night.

Please refer to the attached noise chart for typical noise levels from this type of work.

You are welcome to let the Powering Sydney's Future project team know if you have any queries regarding the out-of-hours work plans by contacting us on **1800 955 588** or at psf@transgrid.com.au before **Monday, 9 November 2020**.

Please write **Wangee Road** in the subject line of your email to identify the road crossing.

Out-of-hours work map

		Approximately 12 shifts of out-of-hours work completed over the period below.		
Noisy activities	Tools and equipment	November	December	January
Under road boring & pumping. Vacuum excavation (noise level is similar to an excavator - refer to attached noise chart).	Generator, lighting tower, drill rig and pump and vacuum truck.	✓	✓	✓

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
