

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Trenching work at Rawson Road and Maiden Street, Greenacre

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas.

Trenching work at **Rawson Road and Maiden Street, Greenacre near Lauma Avenue** will start from **Friday, 7 August 2020**. The work is expected to progress at around 30 metres per day, weather and ground conditions permitting. You can view a map of the cable route at www.transgrid.com.au/psf.

Work activities

- > delivering plant and equipment to site
- > cutting the road surface with a concrete saw
- > digging a trench about two metres wide using an excavator
- > installing conduits (pipes) in the trench
- > backfilling the trench and covering it with steel plates
- > temporarily restoring the road surface to allow normal traffic flow.

Our team will return to permanently restore the road at a later date after the new cable has been installed.

Work hours

Standard work hours are **7am – 6pm, Monday to Friday** and **8am – 1pm on Saturdays**.

How will the work affect you?

- > The work will generate some noise, which we will make every effort to keep to a minimum.
- > There will be a temporary loss of street parking – around 100 metres while trenching is in progress – at each work location.
- > There will be temporary lane closures to ensure the safety of workers, road users and residents, although two-way traffic flows will be maintained. Traffic control will be in place to safely direct traffic around the site.
- > There may be temporary closures of footpaths and cycleways, however we will always provide an alternative route.
- > Access to properties will be maintained unless we make alternative arrangements with you in advance.

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
