# **Powering Sydney's Future**

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT

COMMUNITY NOTIFICATION

### Construction of ancillary pits on Seventh Avenue, Campsie

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at <u>www.transgrid.com.au/psf</u>.

In the next stage of work in your area we will be installing underground fibre optic communications equipment for the monitoring and control of the new electricity cable. Ancillary pits are required for this equipment.

Work to install ancillary pits at **Seventh Avenue, Campsie**, between First Avenue and Second Avenue, will start from **Wednesday 21 April 2021** and take around two weeks to complete, weather and ground conditions permitting. Please refer to the map overleaf.

#### **Work activities**

- > Installing temporary fencing and safety barriers around the worksite.
- > Tree trimming may be required to create a safe distance from plant and equipment (conducted by a trained arborist).
- > Excavating ancillary pits up to two metres long and two metres wide either in the road, footpath or grass verge.
- > Installing precast concrete sections in the pit to form the floor and walls of the ancillary pits.
- > Excavating a narrow trench to connect the pit to the cable trench in the road or joint bay.
- > Using a dewatering pump/vacuum truck as required, particularly in wet weather.
- > Temporary restoring the road, footpath and grass verge surface to allow normal traffic flow.

#### Work hours

Standard work hours are 7am – 6pm, Monday to Friday and 8am – 1pm on Saturday.

#### How will the work affect you?

- > Seventh Avenue will remain open to local residents under traffic control.
- > Seventh Avenue will be temporarily closed to through traffic between First Avenue and Second Avenue during the work. Traffic detours will be in place for non-residents.
- > Traffic control will be in place to safely direct traffic around the site.
- > The work will be noisy at times, but every effort will be made to keep noise to a minimum.
- > There will be a temporary loss of street parking while work is in progress.
- > Road users may experience short delays to access local properties.
- > There may be temporary closures of footpaths, but we will provide an alternative route for pedestrians.
- > If we expect your driveway access will be disrupted, we will inform you in advance and discuss arrangements.

#### Location of work

#### What's next

Following the installation of the ancillary pits, we will temporarily restore the road surface.

The crew will return at a later stage to install similar ancillary pits on Seventh Avenue between Third Avenue and Fourth Avenue (near the joint bay shown on the map).

Once all work is complete in the area and cables are installed and tested, we will permanently restore the road.

#### **Contact us**

If you have any questions or concerns, please contact the Powering Sydney's Future project team on 1800 955 588, or at psf@transgrid.com.au

#### **COVID-19 Safety protocols**

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
