

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Work update for Acacia Avenue, Greenacre

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

You may be aware that construction resumed in Wangee Road on Thursday 17 August 2021. During the conduit inspection process, a section of conduit was found to be damaged. This section will need to be re-excavated and repaired.

From **Friday 27 August 2021**, work will start in **Acacia Avenue, Greenacre, between Wangee Road and Wilbur Street**, to repair the damaged section of conduit. This work will occur at the same time as ongoing work in Wangee Road (see map overleaf).

Work in Acacia Avenue will include re-excavating the road surface to expose the previously installed conduits, repairing the damaged section, and then temporarily restoring the road surface.

The road surface impacted by our work will be permanently restored by City of Canterbury Bankstown Council. This work will occur after our work in Wangee Road is complete. You will be advised by Council (or its contractor) at least 48 hours prior to work starting in Acacia Road and Wangee Road.

Work hours

Work hours are **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**.

How will the work affect you?

- > **At times, Acacia Avenue will be closed at the Wangee Road roundabout.** Access for residents will be maintained via Wilbur Street.
- > Some work activities will be noisy but we will make every effort to keep noise to a minimum.
- > There will be a temporary loss of street parking. We will endeavour to maximise street parking where possible.
- > An alternative route will be provided if any diversions or closures of pedestrian pathways are required.
- > Residents and businesses may experience short delays to access properties.
- > Driveway access will be maintained where possible. If we anticipate that access will be disrupted for an extended period, we will inform you in advance.

Work activities

- > Installing temporary fencing and safety barriers.
- > Delivering plant and equipment to site.
- > Trimming trees to create a safe distance from plant and equipment (directed by a qualified arborist).
- > Using a pump/vacuum truck to remove water as required.
- > Excavating the ground around the previously installed conduit using a road saw and excavator.
- > Repairing the damaged section of conduits using milling machine attachment and hand tools.
- > Checking recently installed conduits using CCTV equipment.
- > Covering the excavated sections of road with steel plates where required to maintain traffic flow.
- > Temporarily restoring the road surface to allow normal traffic flow.

Location of work - Acacia Avenue and Wangee Road

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
