

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Underbore at Pile Street, Marrickville

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

Work to complete an underbore on **Pile Street, Marrickville, on either side of Wardell Road**, is due to start from **Tuesday, 8 December 2020** and will take around four weeks, weather and ground conditions permitting.

We will set up two work areas on Pile Street, on either side of Wardell Road. Please refer to the map overleaf for the location of the underbore.

Work activities

- > Installing temporary fencing and safety barriers.
- > Tree trimming as required to create a safe distance from plant and equipment (conducted by a trained arborist).
- > Drilling under the road using a drill rig.
- > Excavating a pit.
- > Assembling and then pulling conduits (plastic pipes) through the underbore.
- > Digging a trench about two metres wide using an excavator and installing conduits (pipes) in the trench.
- > Temporarily restoring the road surface to allow normal traffic flow.

Our team will return at a later date to undertake trenching work along Pile Street. Permanent restoration of the road and any impacted areas will take place after the new cable has been pulled through. We will write to you again before these next stages of work.

Work hours

Work hours are **7.00am – 6.00pm, Monday to Saturday**.

How will the work affect you?

- > The work will generate some noise, which we will make every effort to keep to a minimum.
- > There will be a temporary loss of street parking of around 150 metres while work is in progress.
- > There will be temporary lane closures to ensure the safety of workers, road users and residents. Traffic control will be in place to safely direct traffic around the site.
- > Road users may experience temporary delays in accessing local properties.
- > If we anticipate that your driveway access may be disrupted, we will inform you in advance and discuss arrangements.

Location of work sites

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific access protocols at our work sites.
