

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

### Work update for Muir Road, Chullora

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf).

As you will probably be aware, TransGrid has completed a number of work activities at Muir Road, Chullora. We will return to your street soon to deliver the remaining work and test the new cable.

### Remaining work

The work activities outlined below will start from **Monday 12 July 2021** and will, at times, involve traffic changes as shown on the map overleaf. We expect to work on Muir Road **until late August 2021** but work will not be continuous during this period.

- **Excavation**  
We will open up the previously constructed joint bay and cable pulling pits, and use CCTV to inspect the conduits we have previously installed.
- **Testing**  
Testing the new cable involves a crew lifting the lid off the previously installed ancillary pits, and using hand tools to monitor the cable's performance.
- **Permanent restoration**  
We will permanently restore road, kerb and gutter at the joint bay and cable pulling pits.

### Work hours

Work hours are **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**.

### How will the work affect you?

- > **There will be temporary lane closures on Muir Road but two-way traffic flow will be maintained.** Traffic control will be in place to safely direct traffic around the site.
- > Some work activities will be noisy but we will make every effort to keep noise to a minimum.
- > There will be a temporary loss of street parking. We will endeavour to maximise street parking where possible.
- > An alternative route will be provided if any diversions or closures of pedestrian pathways are required.
- > Residents and businesses may experience short delays to access properties.
- > Driveway access will be maintained where possible. If we anticipate that access will be disrupted for an extended period, we will inform you in advance.

## Work activities

All activities will involve:

- > Installing temporary fencing and safety barriers.
- > Delivering plant and equipment to site.
- > Trimming trees to create a safe distance from plant and equipment (directed by a qualified arborist).
- > Using a pump/vacuum truck to remove water as required.

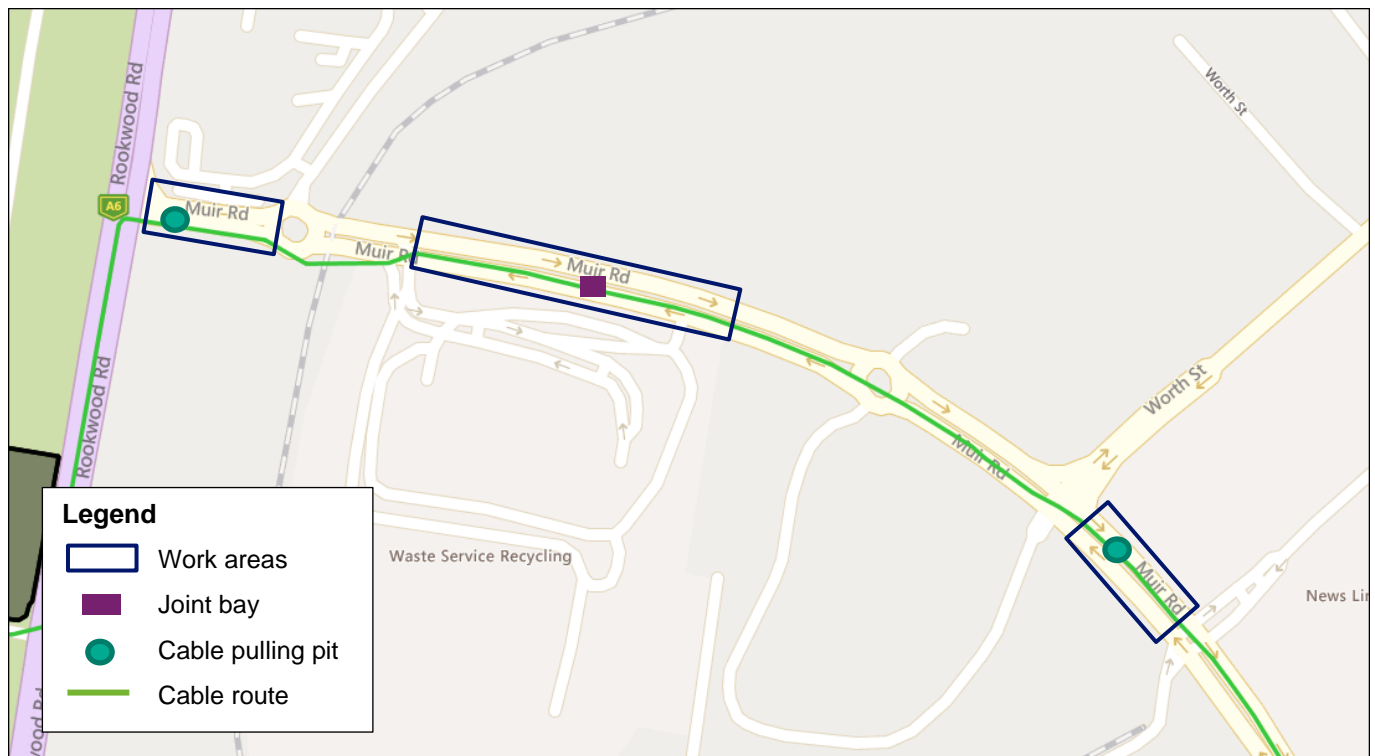

Excavation and trenching will also involve:

- > Excavating the ground around the joint bay using a road saw and excavator.
- > Checking recently installed conduits using CCTV equipment.
- > Covering the road with steel plates where required to maintain traffic flow.
- > Temporarily restoring the road surface to allow normal traffic flow.

Permanent restoration work will also involve:

- > Restoring the road, kerb and gutter at the joint bay and cable pulling pits.
- > Line marking the road where required.

## Location of work

## Contact us

If you have any questions or concerns, please contact the Powering Sydney's Future project team on 1800 955 588 or at [psf@transgrid.com.au](mailto:psf@transgrid.com.au).

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
