Works Notification | November 2026

Night works - Childowla Bridge, Childowla

Night works on Childowla Bridge, Childowla Road

As part of construction for HumeLink East there will be night works on **Childowla Bridge** in **mid-November**. Crews will be working to reinforce Childowla Bridge and install temporary bridge decking plates. These works are essential to allow for the safe movement of heavy equipment and machinery.

Timing of the work

Work on the bridge is scheduled to take place between **Monday, 16 November** and **Thursday, 19 November 2026**. The work will take one night and will be done between 5pm and 5am. Due to the nature of the work, there will be significant delays while the bridge is closed. Crews will work to minimise noise impacts from the night works.

If work needs to be rescheduled, it will be done between **Monday, 23 November** and **Thursday, 26 November 2026**.

Where we are working

The site for the works is the Childowla Bridge on Childowla Road.

Traffic control arrangements

The works will cause delays for motorists travelling between Bookham and Childowla on Childowla Road at the Childowla Bridge.

- Work is being done at night between 5pm and 5am to minimise impacts
- Childowla Bridge will be closed to residents and local traffic between 8:30pm and 2:30am
- Access for emergency vehicles will always be available during the work.

We appreciate your patience while this work is undertaken and apologise for any temporary inconvenience associated with the traffic control and night works.

What the work will involve

The first stage of work will involve setting up traffic control and environmental controls, removing gravel and clearing the existing bridge deck.

Crews will then lift and place temporary steel components onto the bridge deck and lift and place precast units to reinforce the bridge foundations.

Once the site has been inspected the road and bridge will be reopened to traffic by 5am.

Register to receive SMS Alerts

To help keep you informed on what is happening in your area, we're offering the option to register for SMS Alerts to receive project updates and assist you with journey planning. **Scan the QR code to opt-in.**

By opting in, you consent to the HumeLink East project delivery partners using your details to provide you with project updates and information related to the project.

Keeping you informed

We'll continue to keep you updated about the project and let you know of any work we're planning which might impact you. If you have questions or concerns about any of the above, please contact our Community and Stakeholder Engagement team on **1800 317 367** or by emailing humelink@transgrid.com.au

Stay up to date with our work

Please head to **transgrid.com.au/HumeLink** or scan the QR code to subscribe to regular updates, and for more information on the project.

HumeLink is one of NSW largest energy infrastructure projects, with about 365 kilometres of new 500kV transmission line which will connect Wagga Wagga, Bannaby and Maragle. The eastern portion between the existing Bannaby substation and Wondalga is being delivered by Acciona Construction Australia Pty Ltd and Genus Infrastructure (NSW) Pty Ltd in a joint venture as AG JV HumeLink East.
