

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Underbore at Wangee Road, Lakemba

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

Work to drill an underbore at **Wangee Road, Lakemba, on either side of Coxs Creek**, is due to start from week commencing **Monday, 19 October 2020** and will take around five weeks, weather and ground conditions permitting.

We will set up two work areas on Wangee Road, on either side of Coxs Creek (see map overleaf).

Work activities

- > Installing temporary fencing and safety barriers.
- > Drilling under the road using a drill rig located in the northern site compound.
- > Excavating a pit in the southern site compound.
- > Pulling conduits (plastic pipes) through the underbore.
- > Tree trimming to create a safe distance from plant and equipment (conducted by a trained arborist).
- > Temporarily restoring the road surface to allow normal traffic flow.

Our team will return at a later date to undertake trenching work along Wangee Road. Permanent restoration of the road and any impacted areas will take place after the new cable has been pulled through. We will write to you again before these next stages of work.

Work hours

Standard work hours are **7am – 6pm, Monday to Friday** and **8am – 1pm on Saturdays**.

How will the work affect you?

- > The work will generate some noise, which we will make every effort to keep to a minimum.
- > There will be a temporary loss of street parking of around 200 metres while work is in progress.
- > There will be temporary lane closures to ensure the safety of workers, road users and residents, although two-way traffic flows will be maintained. Traffic control will be in place to safely direct traffic around the site.
- > Access to properties will be maintained unless we make alternative arrangements with you in advance.

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
