

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

### Work update for Pile Street, Dulwich Hill

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf).

As you will probably be aware, TransGrid has completed a number of work activities at **Pile Street, Dulwich Hill**. We will soon return to Pile Street, between Fairfowl Street and Wardell Road, to do the remaining work.

#### Remaining work

The work activities outlined below will start from **Wednesday 21 July 2021** and at times will involve traffic changes as shown on the map overleaf. We expect to work on Pile Street **until late August 2021** but work will not be continuous during this period.

- Joint bay installation**  
 As part of work so far, we have installed one joint bay in Pile Street (where sections of cable are joined together). We will now return to Pile Street to install the second joint bay. We will also install small communications pits and dig a trench on either side of the joint bay to install new conduits (pipes) that will connect with the existing trench. Once the joint bay has been installed, we will use CCTV to inspect the conduits we have already installed.
- Testing**  
 Testing the new cable involves a crew lifting the lid off the previously installed communications pits, and using hand tools to monitor the cable's performance.
- Permanent restoration**  
 We will carry out footpath restoration and concreting at the communications pits located in the grass verge.

**The Pile Street road surface will be permanently restored at a later stage in consultation with Inner West Council.** Residents will be advised further regarding the delivery and timing of this activity.

#### Work hours

Work hours are **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**.

#### How will the work affect you?

- > **At times, Pile Street will be closed to through traffic between Fairfowl Street and Wardell Road. Access for residents will be maintained.**
- > Some work activities will be noisy but we will make every effort to keep noise to a minimum.
- > There will be a temporary loss of street parking. We will endeavour to maximise street parking where possible.
- > An alternative route will be provided if any diversions or closures of pedestrian pathways are required.
- > Residents and businesses may experience short delays to access properties.
- > Driveway access will be maintained where possible. If we anticipate that access will be disrupted for an extended period, we will inform you in advance.

## Work activities

All activities will involve:

- > Installing temporary fencing and safety barriers.
- > Delivering plant and equipment to site.
- > Trimming trees to create a safe distance from plant and equipment (directed by a qualified arborist).
- > Using a pump/vacuum truck to remove water as required.

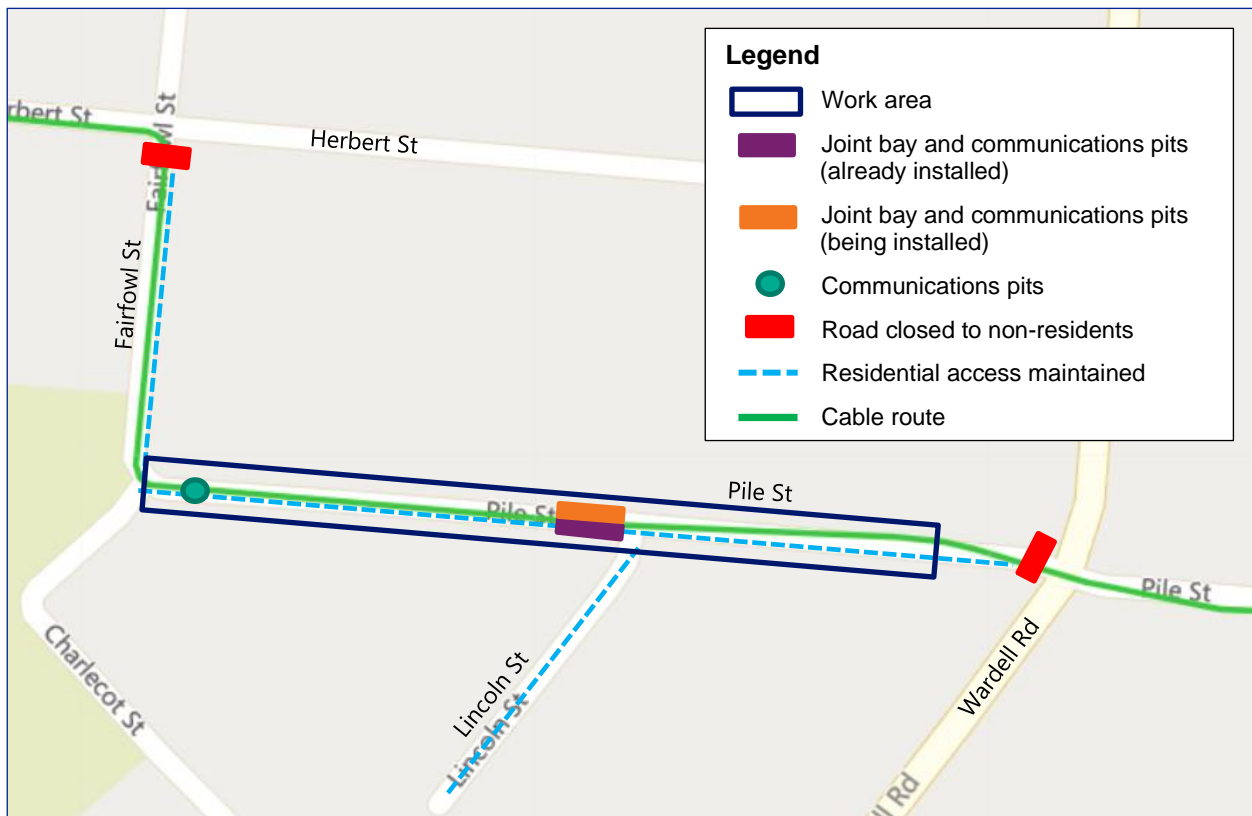

Excavation and trenching work will also involve:

- > Excavating the ground around the joint bay using a road saw and excavator.
- > Digging a trenching about two metres wide.
- > Checking recently installed conduits using CCTV equipment.
- > Covering the road with steel plates where required to maintain traffic flow.
- > Temporarily restoring the road surface to allow normal traffic flow.

Permanent restoration work will also involve:

- > Footpath restoration and concreting at the communications pits in the grass verge.

## Location of work

## Contact us

If you have any questions or concerns, please contact the Powering Sydney's Future project team on 1800 955 588 or at [psf@transgrid.com.au](mailto:psf@transgrid.com.au).
