

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Trenching work at Llewellyn Street, Marrickville

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

Trenching work at Llewellyn Street will start from **Monday 29 March 2021**. The work is expected to progress at around 20-30 metres per day, weather and ground conditions permitting. Please refer to the map overleaf for the location of the work site.

Work activities

- > Delivering plant and equipment to site.
- > Trimming trees (as required) to create a safe distance from plant and equipment (conducted by a trained arborist).
- > Cutting the road surface with a concrete saw.
- > Digging a trench about two metres wide using an excavator.
- > Excavating and installing a cable pulling pit in the road.
- > Installing conduits (pipes).
- > Using a pump/vacuum truck as required.
- > Backfilling the trench and covering it with steel plates.
- > Temporarily restoring the road surface to allow normal traffic flow.

Work hours

Standard work hours are **7am – 6pm, Monday to Friday** and **8am – 1pm on Saturday**. There will be no work done over the Easter long weekend (Good Friday to Easter Monday).

How will the work affect you?

- > **Juliatt Street, Lynch Lane and Shelleys Lane will be temporarily closed** to through traffic during the work. Traffic detours and traffic control will be in place for the safety of workers and road users. All streets will remain open to local residents under traffic control.
- > Traffic on **Llewellyn Street** will be maintained under stop/slow traffic arrangements. **Please allow extra time to travel through the intersection during the work.**
- > 'Left in, left out' arrangements will be in place on Juliatt Street, Lunch Lane and Shelleys Lane.
- > The work will be noisy at times, but every effort will be made to keep noise to a minimum.
- > There will be a temporary loss of street parking of around 100 metres while trenching is in progress.
- > Road users may experience short delays to access local properties.
- > There may be temporary closures of footpaths, but we will provide an alternative route for pedestrians.
- > If we expect your driveway access will be disrupted, we will inform you in advance and discuss arrangements.

Location of trenching work

What's next

We expect to be working in your general area, including at Enmore Road, Scouller Street, Julliett Street, Llewellyn Street and Edgeware Road, until June 2021. Work will involve further trenching, installing joint bays and ancillary pits, drilling a bore under the intersection of Llewellyn Street and Edgeware Road, installing cables and joining sections of cables together. We will keep you advised of these activities.

As we complete each section of work, the road surface will be temporarily restored to allow normal traffic flow.

Once all work is complete in the area and the cable is installed and tested, we will permanently restore the road surface.

Contact us

If you have any questions or concerns, please contact the Powering Sydney's Future project team on 1800 955 588, or at psf@transgrid.com.au

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
