

June 2022

Project update for Rawson Road, Greenacre

Transgrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

As you will probably be aware, Transgrid has completed a number of work activities on Greenacre. We thank you for your patience during our work in your area so far. The next and final stage of work involves permanent restoration on Rawson Road.

We previously notified you that Permanent restoration on Rawson Road would commence in early June and would be carried out during the day. Due to proximity of Waterloo Road traffic signals this work must now be completed at night. The work will start **Monday 04 July 2022** and will take three nights to complete, with no more than two consecutive nights of work taking place. If the weather forecast is poor, work will be rescheduled to the next available day.

Work activities

- > Delivering plant and equipment to site.
- > Restoring the traffic Islands to their existing condition
- > Line marking the road where required.

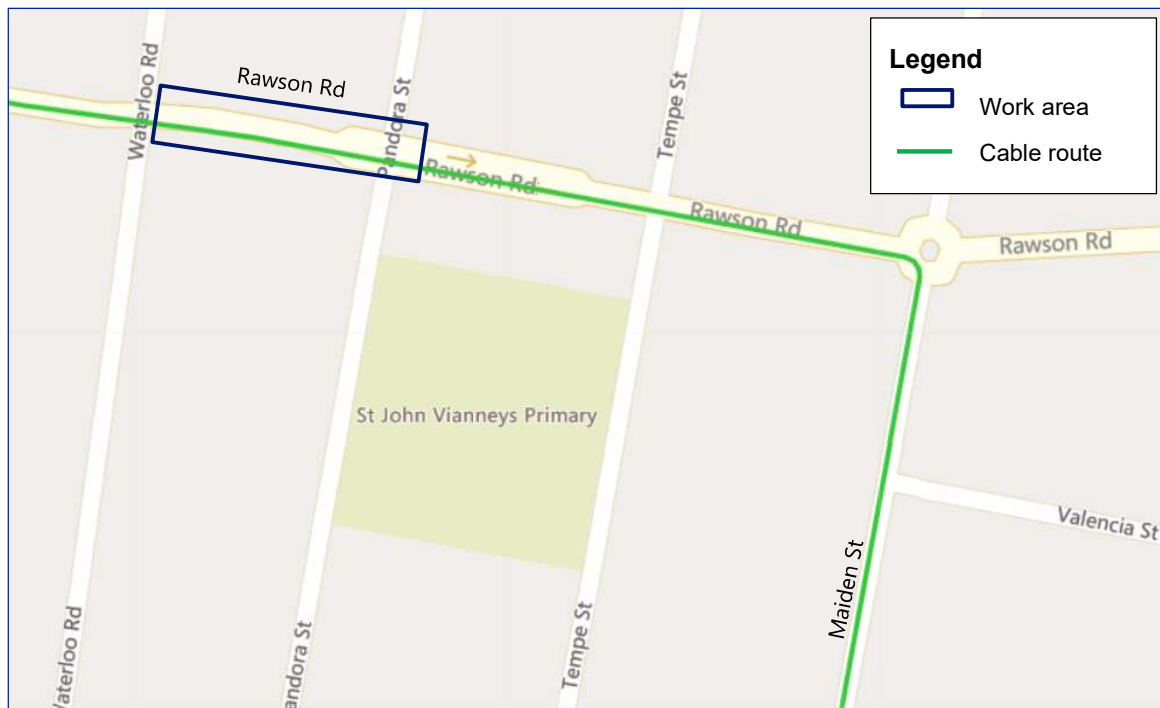

Work hours

- Work hours are **7pm to 6am Monday to Friday**

How will the work affect you?

- > At times, there will be traffic changes at **Rawson Road**. Traffic control and signage will be in place to assist road users.
- > Some work activities will be noisy but we will make every effort to complete the noisy work prior to midnight.
- > There will be a temporary loss of street parking. We will endeavour to maximise street parking where possible.
- > An alternative route will be provided if any diversions or closures of pedestrian pathways are required.
- > Residents and businesses may experience short delays to access properties.
- > Driveway access will be maintained where possible. If we anticipate that access will be disrupted for an extended period, we will inform you in advance.

Location of work

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

Transgrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.
