

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

### Update on construction at May Street and Princes Highway, St Peters

TransGrid is installing a new transmission cable from Potts Hill to Alexandria. The Powering Sydney's Future project will ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf).

Further to our letter issued on 3 June, this is to update you about the progress of the work on May Street and Princes Highway. We have completed trenching work on May Street. Trenching work on the Princes Highway started on Tuesday 15 June and is progressing on schedule. This work is expected to take about three weeks to complete.

The work is carried out five nights per week (Sunday night to Thursday night) from 7pm to 6am, with high noise activities, such as concrete sawing and rock hammering, completed before midnight, where possible. Local traffic changes during work hours are noted below.

#### Contact us

We thank you for your patience and cooperation during the work.

We acknowledge the work will cause disruption to local residents and road users and that the work may affect individuals and families in different ways. **We welcome you contacting us on 1800 955 588 or [psf@transgrid.com.au](mailto:psf@transgrid.com.au) with any questions or concerns, or to seek assistance.**

#### Traffic changes

*The following traffic changes will be in place from 7pm to 6am, Sunday to Thursday*

- > Two-way traffic will be maintained on Princes Highway under traffic control.
- > May Street will be closed to westbound traffic at the intersection with Princes Highway. Access to May Street will be via Campbell Street or Goodsell Street.
- > The May Street closure will affect access to Hutchinson Street, Lackey Street and Applebee Street for residents travelling southbound on King Street (Princes Highway). Available detour routes:
  - From King Street / Princes Highway southbound, use the turning loop at Barwon Park Road to turn back onto Princes Highway northbound. Then, turn left into Goodsell Street, left into Council Street, right into May Street, left into Campbell Street and left into Hutchison Street.
  - Continue south on King Street / Princes Highway, turn right into Campbell Street, continue over the Bedwin Road bridge and turn left into Edinburgh Road. Use the roundabout on Edinburgh Road to turn back into Bedwin Road, then continue on to Campbell Street and then left into Hutchison Street.
- > Some street parking on Princes Highway and May Street will be temporarily removed during the work (day and night).

#### What's next

When trenching is finished, we will temporarily restore the road surface to allow normal traffic flow, and restore the footpath and grass verge as required.

Once all work is complete in the area and the cable has been tested, we will permanently restore the road surface.
